

National Non-Fiction November 2022

Communications Booklist

The theme of Communications embraces a very wide range of topics, so it is inevitable that this book list is a long one! To help you find books that match your interests or are relevant to your needs, the list has therefore been divided into 11 sections: words, how we (humans) communicate, signs and signals, codes and cyphers, printing and books, messages in the post, telecommunications and new technologies, the news, art forms, transport networks and the natural world. More than half of the books listed have been published during the last three years and all of them (bar one) are currently in print. Each section is arranged alphabetically by title, with guidance about age suitability.

Words

365 First Words (Little Word Whizz)

Dr Meredith L Rowe & Monika Forsberg, Magic Cat, 2022. ISBN 9781913520366

Nick Hunter, Raintree, 2015. ISBN 9781406289906

Follow Caxton as he introduces the world to the printing press and compare with Berners-Lee and his invention of the internet. **KS2**

Messages in the Post

Although most of us probably see our local postman/woman delivering mail every day, it's proved difficult to find child-friendly information books about their work. It may be true that 'posting' letters is a less-common means of communication these days, but receiving a postcard, letter, greetings card or parcel in the post can still be very exciting! As well as the information books below, we've therefore included a film and a couple of recent stories featuring letters.

Journey of a Letter

<https://www.youtube.com/watch?v=8pFd8DLcPIY>

6 minutes live-action film which follows a birthday card on its journey from sender to recipient. **All**

100 Letters That Changed the World
